

Do You Know What a CCH Student Sponsorship Can Do?

For less than \$1 per day, YOU can impact the life of a child in Haiti. Every CCH Sponsor is matched with an individual student and periodically receives pictures and updates from Haiti. Like ripples on the water, a CCH Sponsorship begins with one student and will extend to her family, her community, and her nation.

It starts with a **STUDENT**.

A CCH Student sponsorship gives a child the opportunity to attend school where she secures her fundamental building blocks of reading, writing and math. Because a hungry child cannot learn, she'll receive a hot, protein-enriched meal every school day. Doctors will visit her school three times per year to provide direct access to quality healthcare. She'll also receive a uniform and textbooks that she'll wear and carry with pride - every single day.

It lifts up a **FAMILY**.

Approximately 6.5 million Haitians support families on less than \$2 per day, and for many of them, school tuition, uniforms and textbooks are prohibitively expensive. Imagine having to choose only one of your children to educate because the cost is so great. CCH Student Sponsorships make education possible for entire families.

Strengthens a **SCHOOL**.

Students sponsored through CCH aren't just in school - they're in a good school! Through the training, mentorship and Christ-like love offered through CCH Education programming, teachers at these partner schools become stronger and more confident, and their classrooms become a place for exploration and discovery.

It inspires a **COMMUNITY**.

A strong, well-respected school becomes an anchor institution for its community. And when educators and parents join together, they strengthen the support system that is available to both their students and the community at large. CCH Student Sponsorships infuse the entire community with hope and possibility, because the future of that community is inextricably linked to the future of its students and families.

It holds the promise of impacting a **NATION**.

Haiti's future leaders are currently sitting in its classrooms - or peering in the windows of those classrooms, waiting for their chance to thrive. Students at CCH partner schools learn more than just reading, writing and math - in addition to academics, teachers and parents work together to instill leadership and Christian values. Maybe Haiti's future President is being supported by a CCH Student Sponsorship right now. Or maybe, just maybe, she's waiting to be sponsored... by someone like you.

Please help make a difference and become a CCH Sponsor today
