

You're obviously a keen investor, both in the stock market and in Haiti's future. Thanks for your interest in donating to the Community Coalition for Haiti. We are just as dedicated as you are to careful financial stewardship and creating sustained impact towards the mission we share. Here's some information about donating stocks/securities to charity and instructions for how to make your gift to CCH.

Charitable Contributions of Stocks

It's easy to give stocks and other securities including mutual funds to a charity, and there are tax benefits for both the donor and the recipient organization. Donors can deduct the full fair market value of appreciated stock or mutual funds owned for more than one year that have appreciated in value. Neither the donor nor the receiving charity pays capital gains taxes on these stock donations at the time of the gift. If you donate your shares of stocks or mutual funds directly to CCH, you may save on taxes and make a generous gift! As always, please consult your tax advisor for advice specific to your situation.

How to Donate Stock to CCH

Please contact our broker (below) to initiate your stock transfer. Also, please contact Marie Buchwalter (marie@cchaiti.org), Director of Development, and Eric Maggio (maggio.eric@gmail.com), Treasurer, so that your gift receipt from CCH can be generated promptly.
